6th May 2009

The Honourable Tim Holding MP
Minister For Water
Level 26, 121 Exhibition
Melbourne VIC 3000

By facsimile 03 8684 8014

Dear Minister

Fraud: Coliban Water

On 21st November 1985 Max McDonald MLA the then member for Whittlesea raised a most serious matter in Parliament, namely an apparent conspiracy by the predecessors to Coliban Water and Macedon Ranges Shire Council to prevent the sale of my land to any entity other than a timeshare company Woodleigh Heights Resort Developments Pty. Ltd. ("WHRD")

As I now known the conspiracy depended upon fraudulent misrepresentations by Coliban that the water supply within cluster subdivision CS1134 was owned and operated by WHRD. The fraudulent misrepresentations depended upon two acts of concealment and a further fraudulent misrepresentation:

- The acts of concealment were:
 - Because the land was substantially outside the then Water District the Council had approved a private water supply and reticulation system to service the land and which supply was sufficient prerequisite to the grant of building permits.
 - That the reticulation system to that private supply was not complete when the Council sealed the plans of cluster subdivision.
- The further fraudulent misrepresentation was:
 - That a purported water supply agreement between the Water Authority and WHRD was a lawful and enforceable agreement the effect of which was to place ownership and control of the water supply and reticulation system within the subdivision in the hands of WHRD.

The then Ministers for Water, Police and Local Government each undertook to investigate the matter however each of these inquiries failed because of what I perceive to be the abject neglect and incompetence of the departments of the day combined with the fact that a number of Lying Lawyers misrepresented the facts known to them.

- The police department wrongly opened the file as a complaint against police and then closed it as soon as I advised them that there was no complaint against the police.
- The Department of Local Government failed to discover all of the facts concerning the private water supply and reticulation system. It appears to me that they had coffee with and believed what was misrepresented to them by the Council.
- The Department of Water Resources failed to distinguish between the Body Corporate of CS1134 and the private company WHRD and therefore failed to understand that the Water Supply Agreement was an unlawful document which was entered into and used for fraudulent purpose.

- Mr. Ian Lonie of Maddock Lonie and Chisholm (now Maddocks) overtly misinformed the Minister to the effect that the Water Authority had complied with the terms of the Water Agreement when he knew full well that the agreement was unlawful, unenforceable and not capable of being either performed or complied with.
- In company with Mr. Ian Lonie Mr. Greg Garde QC falsely represented to the Administrative Appeals Tribunal that the Water Supply Agreement was both lawful and enforceable.

Due to the abject neglect and incompetence of your department and the other departments together with the fact of the Lying Lawyers the conspiracy and fraud did not get addressed or resolved and I lost my land to the fraud in 1990 when it was sold by my mortgagee to a company associated with the timeshare company at a price which reflected a value without water.

Since then the matter has wended its way through the courts culminating in the most recent round which was instituted by me in 2005.

In this most recent round Macedon Ranges Shire Council and Coliban Water again resorted to Lying Lawyers and overtly misrepresented both fact and law to the courts.

Under instruction from Macedon Ranges Shire Council:

- Ms. Michelle Elizabeth Dixon of Maddocks
- Mr. J Delany SC
- Mr. G Ahern
 - misrepresented the operation of section 9 of the Sale of Land Act 1962 and that section 9 could be avoided by means of contrived 2-lot plans of subdivision.
 - misrepresented a document entitled "Book of Pleadings" so as to falsely represent that the "Book of Pleadings" demonstrated that I was aware that a Kenneth Raymond Buchanan had avoided section 9 by means of contrive 2-lot plans.
 - Misrepresented the "cause of action" set out in the Amended Statement of Claim in Supreme Court proceeding 6321/2005 to be, or to be one and the same as, avoiding section 9 by means of contrived 2-lot plans.

Under instruction from Coliban and its solicitor Mr. Steven Mark Edward

- Major General Greg Garde AO RFD QC
 - Misrepresented that the Water Supply Agreement between Kyneton Shire Waterworks Trust and WHRD was a lawful and enforceable agreement which gave control of the water supply and reticulation system within cluster subdivision CS1134 to that company.

Complete details of those misrepresentations and the facts and circumstances surrounding those misrepresentations are now set out on website <http://courtontrial.com>

As a direct and intended consequence of those misrepresentations the Council and Coliban water wrongfully obtained judgments squarely based on those misrepresentations. Full details are set out on the abovementioned website.

By individually addressed letters to each councillor and Coliban Board Member I put each of them and their respective corporate entities on notice of the fact that their lawyers had misrepresented the facts and the law to the courts and had wrongfully obtained judgments based on those misrepresentations.

In knowledge of, or with a duty to have knowledge of, these things the Council and Coliban water has enforced costs orders against me by means of Bankruptcy Notices. Each of them has accepted about \$230,000 in cash from me.

At the present moment there is a further costs order in favour of Coliban in the sum of \$167,000 which has yet to be taxed. This further order is being pursued by Steven Mark Edward and Major General Garde QC both of whom specifically and overtly misled the court under instruction from Coliban.

Also in knowledge of these things the Council and Coliban have again dishonestly avoided liability for their fraud.

I now look to you and your department to competently undertake the inquiry which your predecessor failed to competently conclude.

I also look to you to ensure that Coliban immediately refunds the monies received by them as a consequence of them having, via their lawyers, deceived the courts. I also look to you to ensure that Coliban does not seek to enforce the further costs order dishonestly obtained by it.

It appears to me that Coliban is devoid of the ethics its website asserts.

Full and complete details including links to all relevant documents are available on <http://courtsontrial.com>

I have referred aspects of these things to:

- The Legal Services Commissioner
- The Attorney General
- The Chief Commissioner of Police.

I will be making further referrals shortly. Details of my referrals are available on the "Watch Here" menu option of the website.

Yours Faithfully
